GENESIX V7 – the first 16 SD/HD channels VideoServer

posted:01/02/2017

GenesiX V7 by Stryme

ONE STEP AHEAD – With 16 flexibly configurable input/output channels (SD/HD/4K ready) packed into the ultra-slim 2U GENESIX VideoServer V7, STRYME is forging ahead in multichannel broadcasting. As the very first company in the industry, the long-term supplier of the Austrian Broadcast Corporation (ORF) and internationally successful broadcast solutions expert launched its new flagship product at the Hamburg Open 2017.

The compact and ultra-slim design of the high-tech GENESIX VideoServer V7 with 16 HD channels is an ideal space-saving solution for OB-Vans. With even more flexibility, usability and control, it boosts Multi-Cam Ingest performance. It comes complete with more functionalities that simplify, speed up and optimize workflows, such as the time-saving Transfer While Capture function. On top of that, it offers even more possibilities and precision, e.g. with the Edit While Capture function that ensures simultaneous and frameaccurate Multi-Cam Ingest – the ideal solution for live sports broadcasts and post-production highlight cuts.

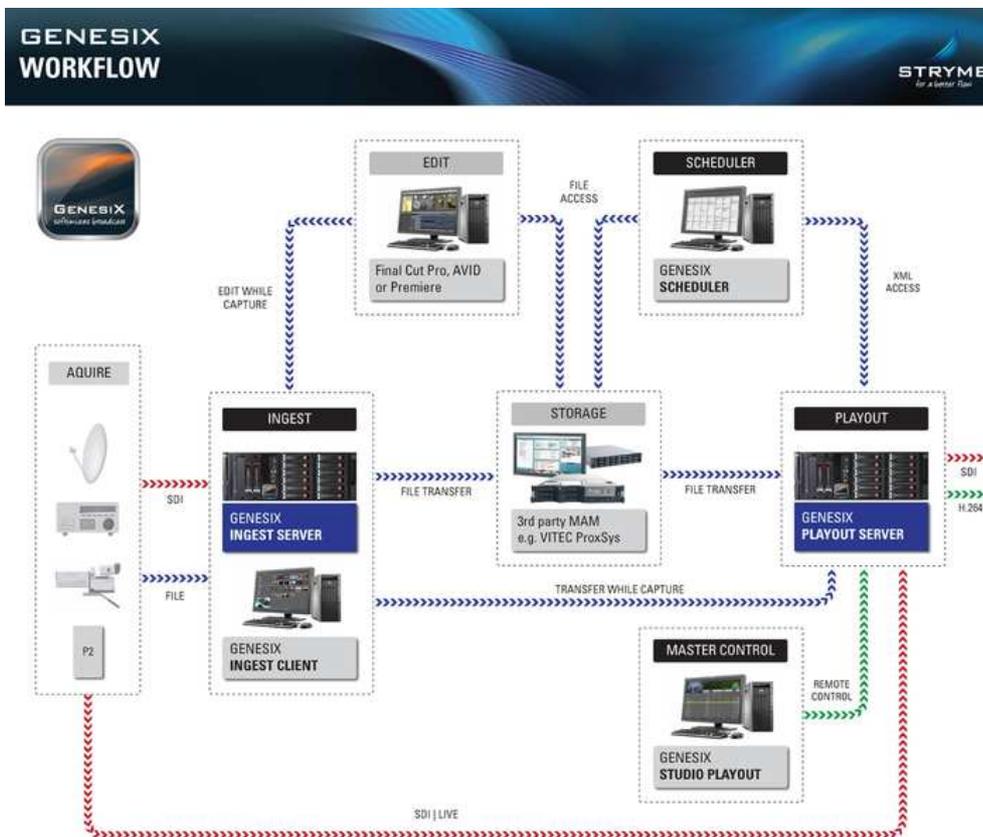

STRYME CEO Goce Zdravkoski sums up: "Our customers expect the best: consistent high quality and reliability as well as a sophisticated, cost-effective and failsafe technical solution that meets their needs – today and tomorrow. Our 2U GENESIX VideoServer V7 with 16 flexibly configurable HD channels meets all these needs, and more. It is currently unmatched in the industry."

About GenesiX
MORE INSIDE THAN EVER BEFORE
STRYME's new flagship product, the 2U GENESIX VideoServer V7 comes with up to 16 flexibly configurable input/output channels (SD/HD/4K ready). It has been equipped with a powerful TDIR Multichannel Commander and a unique Time Delay Instant Replay function, an Advanced Graphic Composer as well as Avid Interplay integration. It includes a 5-year guarantee, and supports all industry-standard codecs and formats, providing customers with maximum compatibility and flexibility.

ABOUT STRYME

Located in Vienna, STRYME has been providing and developing tailored professional broadcast and automation solutions for small, medium-sized and specialized broadcasters for more than a decade. The Austrian market leader is known for uncompromising quality and reliable out-of-the box solutions that simplify, speed up and optimize daily broadcast workflows.

When video server reliability matters most, STRYME is the right choice. As a long-term supplier of the Austrian Broadcast Corporation (ORF), STRYME is a renowned and trusted industry partner. The company has implemented a wide range of different projects, locally in Austria and internationally, in Germany, Switzerland, Italy, Russia or South Korea.
