**Luxury  
Car Storage  
and Presentation  
Solutions**

## **Fahrengold – Car storage and presentation design redefined**

Only when we question the status quo can we innovate truly unique solutions.

The FAHRENGOLD concept redefines aesthetics and functionality by breaking new ground in the field of car garages and products to safely store and stage cars. After all, an exceptional vehicle should be showcased in

an exceptional environment. With a design that perfectly blends the technical and architectural principles of proportion and construction. A design that pays attention to detail and ensures that each product is one of its kind – developed and 100% “Made in Germany”.

Discover one of our state-of-the-art solutions for your car.

**The Fahrengold Carpad**  
A safe stage for your jewel

A truly unique product to safely store and showcase your car. Turn your parking space into an intelligent and safe stage. Includes notifications via Push Messages to your “FAHRENGOLD Carpad App” if persons come too close to your car and to prevent undetected damages or even theft.

# Structure & Features

## Technology & Design

Carpad	Carpad Show	Structure & Features
●	●	Structure made from extra-hardened aluminum profiles
●	●	Cover plates and surrounding ramps made from solid aluminum profiles
<b>Security Features</b>		
●	○	Immobilizer (hydraulic flaps)
●	○	Vehicle monitoring through built-in sensors and cameras
<b>Lights &amp; Lighting</b>		
●	●	Surrounding LED lighting in RGB colors
<b>Electrical Power &amp; Sockets</b>		
●	●	Operation through connection to mains, incl. emergency battery (2 * 230V socket in carpad)
●	○	Operation through fully independent battery solution, incl. rechargeable battery
<b>Management &amp; Control</b>		
●	○	Management via "FAHRENGOLD Carpad App" for iOS and Android devices
○	●	Management via remote control
<b>Customization</b>		
●	●	Color - Surrounding sheets
●	●	Color - Center channel
●	●	Covering material parking area

### Measurements

#### Length

500 cm	510 cm	520 cm
530 cm	540 cm	individual

#### Width

230 cm	240 cm	250 cm
260 cm	270 cm	individual

### Colors & Covering Material

#### Color Options / Surrounding Sheets & Center Channel

Anodizing "color may deviate slightly from the sample"

 Nature	 Light Bronze	 Blue
 Champagne	 Medium Bronze	 Anthracite Blue
 Gold	 Dark Bronze	 Freely selectable
 Stainless Steel semblance	 Black	

Powder Coating  Freely selectable

Visible Carbon  Black  Freely selectable

#### Covering Material Options / Parking Area

Super grip coating in RAL 9005 (deep black)

3M anti-slip coating

Anodization as per anodized color selection (see above)

## Fahrengold Carpad

### Protection

The development of our products is based on our customers' requirements. The Fahrengold Carpad arose from the need for more and better protection of one's car in collective garages. Especially in urban areas, cars parked in collective garages are often far more sensitive to damage and theft. And, just as often, one receives no information about such incident – least of all quickly.

Our FAHRENGOLD Carpad provides this information, using a combination of physical security features and sensors as well as cameras and an App. You are welcome to contact us to find out more about our product.

## Our Philosophy

### Team

FAHRENGOLD was founded in 2018 by entrepreneur Nikita Fahrenholz and the award-winning architect Michael Schulz. Since January 2020, Maximilian Knueppel runs the business as Managing Partner. Chief Engineer Daniel Karstedt heads construction and production.

### Passion

The FAHRENGOLD team is passionate about cars and ecstatic about good automotive design – whether it's new models or vintage classics, sports cars or hypercars. We are convinced that the way we store and showcase cars should mirror this passion.

### Quality

FAHRENGOLD is “Designed and Made in Germany”. Design, development, and production take place solely in Germany. Our own team collaborates with a network of leading specialists to steadily optimize our products, and to meet and advance the highest quality standards.

### Innovation

To further advance FAHRENGOLD products, we focus on integrating the latest innovations as well as those yet to be developed. Our goal is to offer better alternatives to products that are readily available on the market. We at FAHRENGOLD always seek the best solution for you – tailored to meet your exacting needs.

### Design

Over and above the functionality of a mere storage solution for cars, FAHRENGOLD products claim to be aesthetically pleasing design objects that mirror the contemporary zeitgeist and perfectly merge with the architectural concept.
